

Interactive Section with Terminal

This **Interactive Section** also includes a Linux instance.

You can use the instance directly from below or click **Full Screen** to open a full-screen instance in a new browser window.

On the top left part of the instance window, you will see a few icons. The one you will find yourself using the most is the **bash** terminal.

Follow the steps below to complete this exercise.

- 1. Click the **Start Instance** button
- 2. Try to locate the **bash** terminal icon and click it!
 - *Hint: Look for the icons in the top-left section of the instance.*
- 3. Type **uname -a** and press Enter in the terminal window.
 - *Tip: This will return some useful information about the specific flavor of the OS and its kernel.*

```
[user1@htb]$ uname -a  
...
```
